LEVITATION LLC

PRIMARY SERVICE OFFERING

A complete floor-care program.

Every proposal begins with the floor type, present condition, traffic demands and operating schedule - then converts those findings into a clear scope of work.

01 Full Strip & Refinish

Remove worn finish, neutralize the surface and rebuild protection with a site-appropriate multi-coat system.

02 Scrub & Recoat

Refresh appearance and restore protection without a full strip when the existing finish remains serviceable.

03 High-Speed Burnishing

Improve gloss uniformity and appearance between restorative services on compatible floor systems.

04 Deep Machine Scrubbing

Lift embedded soil and traffic film from compatible commercial hard floors.

05 Maintenance Programs

Choose one-time, quarterly or recurring schedules calibrated to traffic and facility demands.

06 Protection & Scheduling

Phased, after-hours and weekend service options help limit interruption to normal operations.

HOW WE MOBILIZE

1. **WALKTHROUGH** — Measure and assess
2. **PROPOSAL** — Scope, price and schedule
3. **SERVICE** — Protect, prepare and perform
4. **QUALITY CHECK** — Review and care plan

FACILITIES WE SUPPORT

Offices | Retail | Restaurants | Fitness | Schools | Worship | Multifamily Common Areas
